GEO-45327	Crown (Red)

\$6.37/PK

going green...Paper

More than 56 percent - an all-time high - of the paper consumed in the U.S. during 2007 was recovered for recycling. This impressive figure equals nearly 360 pounds of paper for each man, woman, and child in America (Paper Industry Association Council, 2007). This is a serious success story that will only get better as the years pass.

going green...Plastic

Many recyclable plastics that are not recycled do not biodegrade in landfills, which means our landfills fill up faster, which means more land will have to be used to dispose of our garbage.
